

## MEGANE SEDAN

RENAULT

balance and comfort

### A modern and elegant design

The Mégane can be encapsulated in three words: compact, expressive, dynamic. Its personality exudes a desire for individuality and pleasure. It is an energetic car that makes no secret of its sporty personality and actively promotes driving pleasure. The Mégane stands out as a distinctive product in a segment housing mainly look-alike cars.

The Mégane combines Renault's know-how in the area of comfort with an intelligent approach to travelling pleasure. The layout offers many advantages in terms of both comfort and novel design, e.g. the panoramic sunroof and the thermal comfort, all of which make the interior a real "home-from-home".

Do you need any more reason to own one?

Cockpit styled ergonomics

## Agile and sure footed

The Mégane provides dynamic road behaviour in keeping with its advanced internal and external appearance. Road behaviour of the Mégane is highly efficient in terms of both road holding and braking, providing complete driving control in all circumstances.

The variable assist electric power steering enhances driving precision with characteristics tailored to every need. Cockpit style ergonomics have been developed to make the driver feel part of the car.

The Mégane also offers simplicity and ease of use with features like the Renault card and F1-style fuel filler flap with integral cap. Equipped with many features found only in more expensive cars, the Mégane provides technical features like a rain and light sensors, rear parking sensors, a cruise control with speed limiter, automatic activation of hazards in the event of heavy braking and double optic "See-Me-Home" headlights.

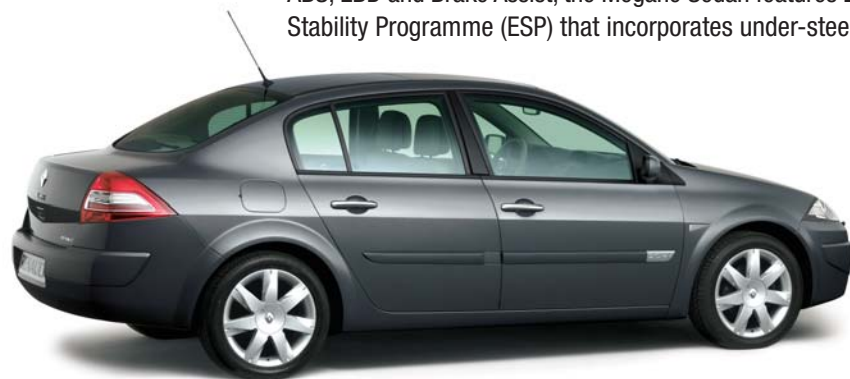

maximum protection for all occupants

### Safety and peace-of-mind

The reinforced structure of the Mégane, with energy absorption and programmed crumple zones, guarantees optimum deformation in the event of an impact. In the area of occupant safety, the Mégane offers a host of features such as 6 airbags and double front pre-tensioners that are designed to give maximum protection to each individual. In addition to the latest generation Bosch 8.0 ABS, EBD and Brake Assist, the Mégane Sedan features Electronic Stability Programme (ESP) that incorporates under-steer control.

The Mégane appeals to the emotions:  
to own one is to succumb to desire and pleasure.
