

# V40

# WE'RE VOLVO. WE PUT PEOPLE FIRST.

HELLO

| 1

We're Swedish. Scandinavian designers always start with the person who's going to use an object and ask, "What can we do to make this person's life better, easier or more comfortable?" We've always used this philosophy when we design our cars. So, while other car manufacturers might start with technology and try to squeeze people in around it, we begin by designing our cars around you. We ask what you need, and then use our technical skills to make your life easier, better, safer and more beautiful. Form follows function, and when you design a car inside and out with people in mind, it looks naturally beautiful. We think that looking at and interacting with our cars should make you feel great, every day.

Designing cars around people has led to many innovations over our 86-year history. The three-point safety belt in your current car? That was our invention from 1959. We've solved a few environmental issues, too – in 1976, we developed the Lambda Sond – a sensor that monitors exhaust gas, reducing emissions and boosting performance as well as economy. It's still part of every petrol-engined car in the world.

Innovation is at the core of Volvo. Perhaps it's because of where we come from.

IN SWEDEN, GREAT DESIGN IS  
A WAY OF LIFE, NOT A LUXURY.

◀ For such a small country, we've produced more than our share of creative talent. That's because we know that to be truly creative, you've got to believe in yourself and do things the way you know they should be done, regardless of what others are doing.

Take our seats. In the early 1960s, we consulted with a team of orthopaedic surgeons at Chalmers University of Technology here in Gothenburg. They wondered why a group of car designers wanted to see them. Nobody had thought to ask an orthopaedic surgeon's advice when designing a car seat before. But the ergonomic seat designs we developed as a result have made our cars world-famous for their outstanding long-distance comfort.

Like all Scandinavian craftsmen, we use only the best materials for the job, like the ultra-strong boron steel in our safety cages. We use natural, authentic materials inside our cars – not because they're fashionable this season, but because they make you feel good when you touch them and they're better for your health.

Creating a beautiful experience for you is natural for us. Because in Sweden, great design is a way of life, not a luxury.

# SMALL VOLVO, TONS OF CHARACTER.

YOUR NEW CAR

VOLVO V40 | 4

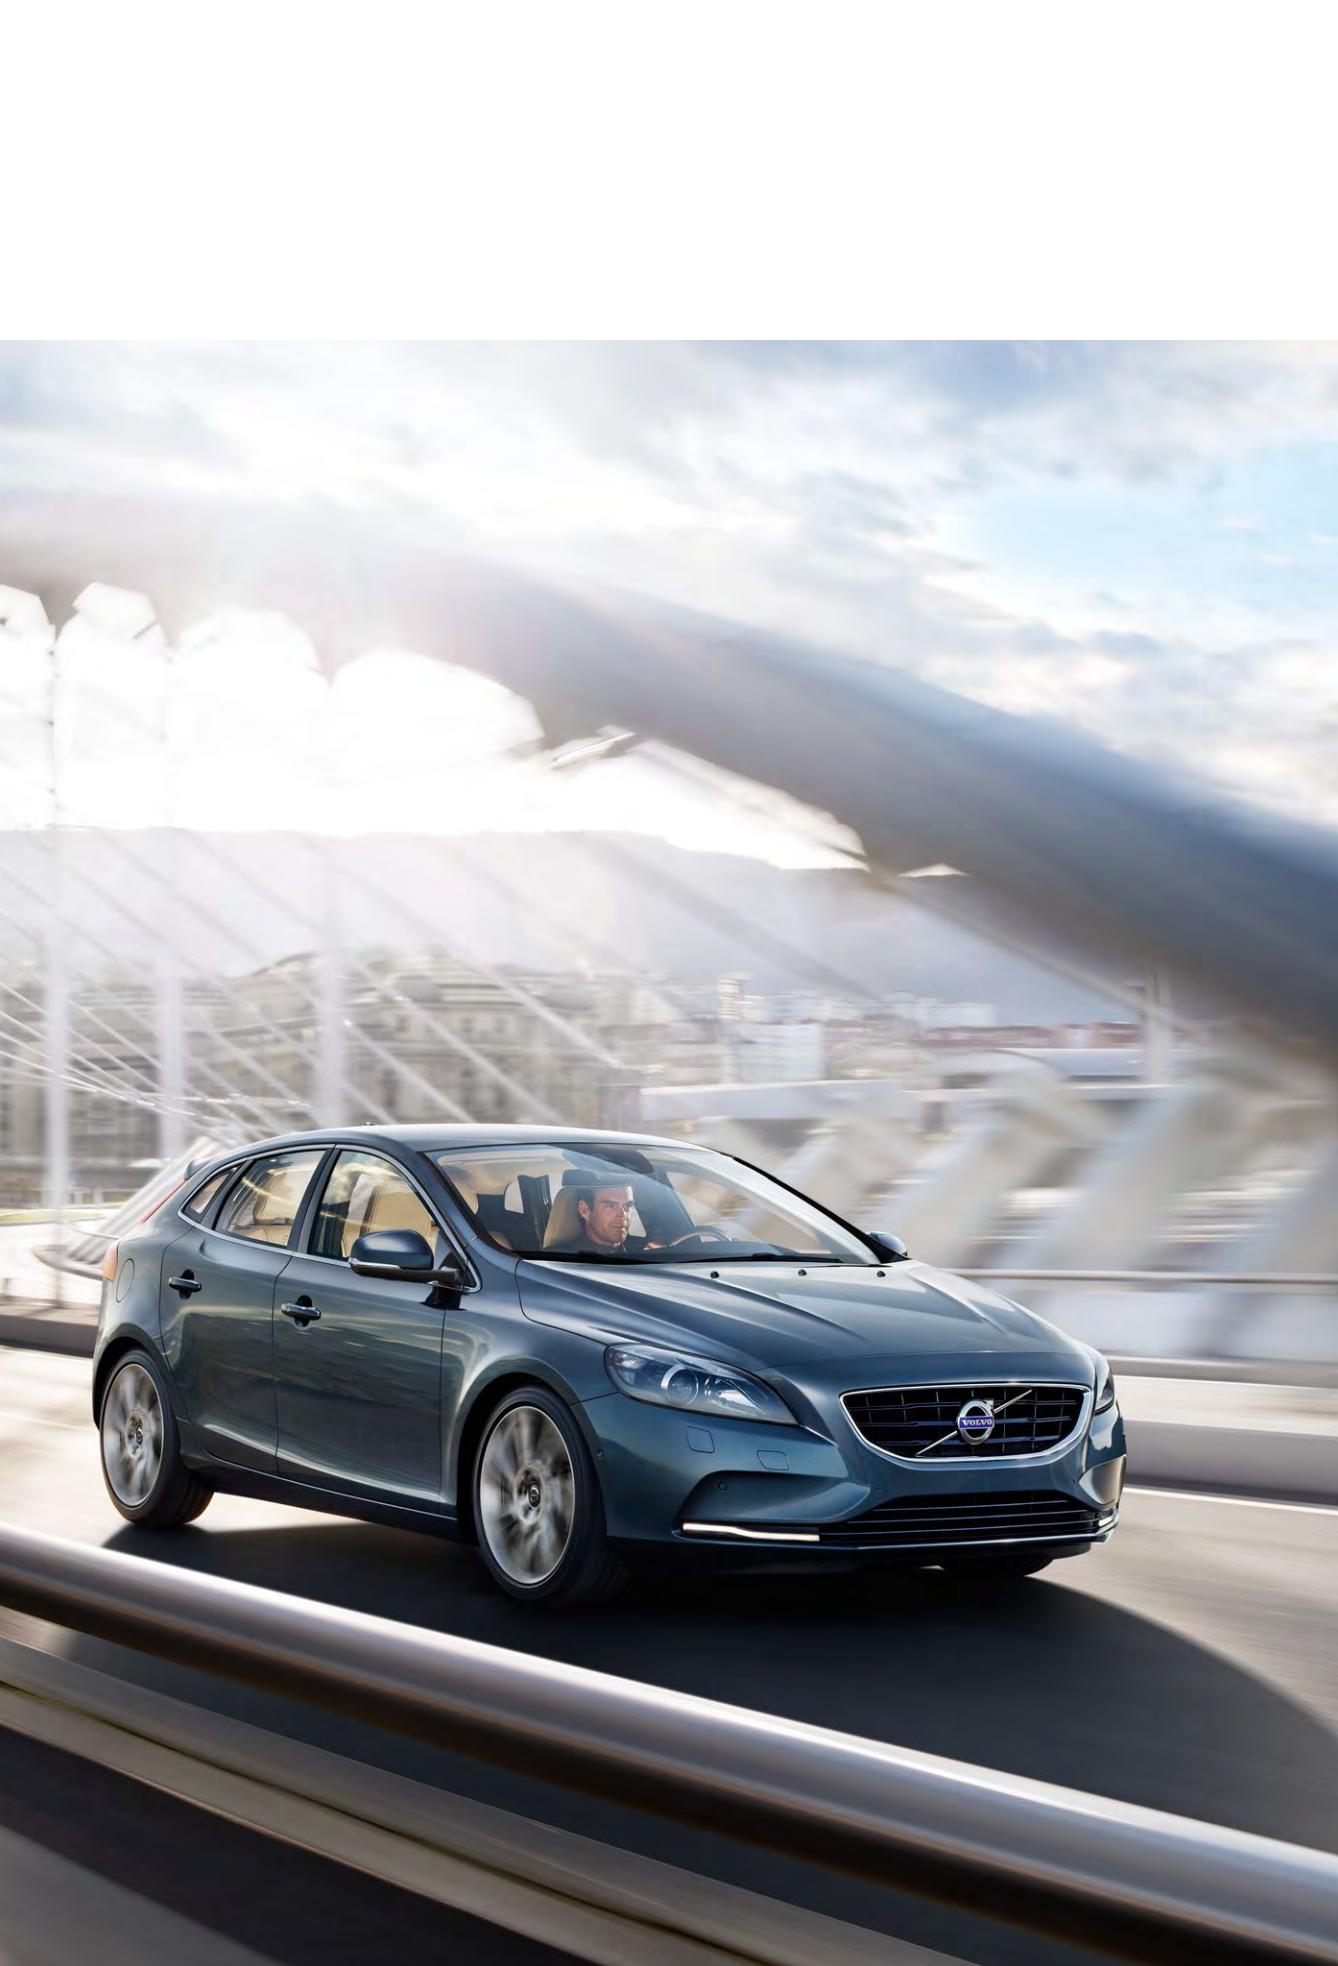

With the Volvo V40, you've found your perfect match. With its clean lines and striking silhouette, here's a five-door premium hatchback that stands out without needing to shout. In a segment that's dominated by me-too lookalikes, the V40 is a fresh breeze of Scandinavian flair. But this car's beauty is more than skin deep. The V40 is designed to delight you every single day, whether you go about your daily business around town, or decide to have a spur-of-the-moment weekend away. Not only do you get the fine materials and craftsmanship you've come to expect from us, the V40 is also packed with innovative technologies. And because we know you love to drive, you get a superb chassis with a range of high-performing engines. Looks, driving fun and innovative technologies – the Volvo V40 really has it all.

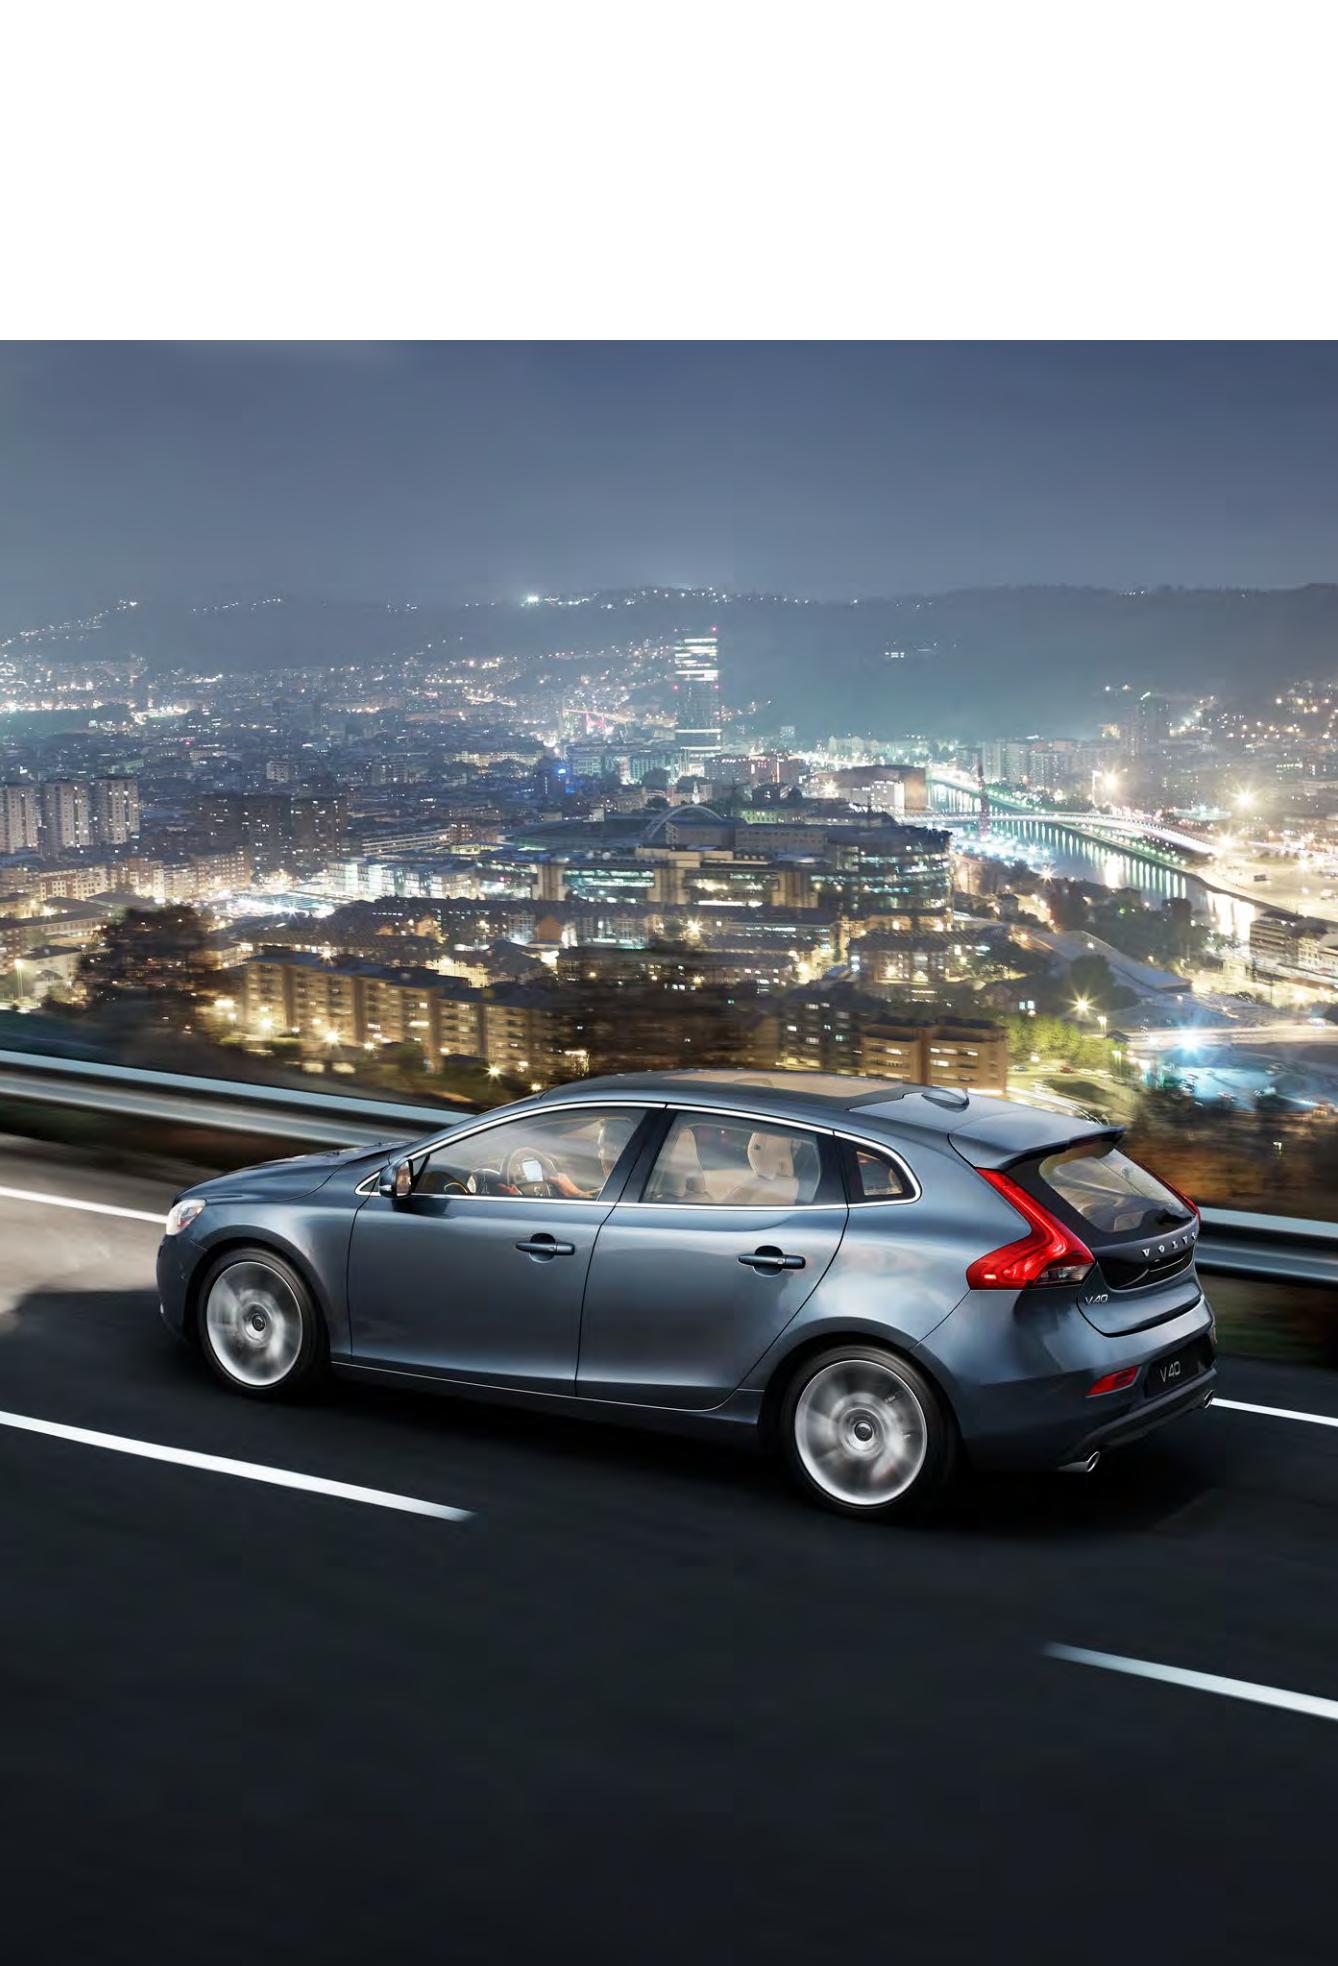

The best way to enjoy our V40 R-Design's optional stiffer chassis and direct steering is to take a test drive.

## STUNNING LOOKS, EXHILARATING PERFORMANCE.

OUR DESIGN VISION

VOLVO V40 | 7

"We know that Volvo drivers like to stand out from the crowd – but in a subtle, sophisticated way", says Simon Lamarre, the V40's exterior designer. That's why he and his team have created a shape that draws you in and rewards you with lovingly executed details the closer you look. Like the subtle hook on the rear doors, which harks back to our iconic 1960's coupé, the Volvo P1800, and the tailgate with its distinctive panel in black glass. And our wheel offer means you can give your V40 an even more personalised, striking look, whether you opt for our sporty Ixion rims or the eye-catching Ailos wheels, which are available with Red, White or Lime Décor.

Of course, there's more to the V40 than meets the eye. We've spent thousands of hours perfecting the V40's chassis to give you an agile, fun driving experience, whether you zip through busy city streets, drive across twisty country roads or cruise along the motorway. And to further enhance your driving experience, the V40 comes with Corner Traction Control as standard. It's a torque vectoring system that helps prevent understeer and makes cornering even more fun. All this is complemented beautifully by our range of fuel-efficient engines. From the blisteringly powerful T5 turbo to our new, ultra-efficient D2, which emits just 88 g CO<sub>2</sub>/km, we have the perfect engine for you.

The V40's clean, elegant lines are the embodiment of timeless Scandinavian design. Inside, the frameless rear-view mirror is a tribute to contemporary smartphone design.

TO SEE MORE OF THE V40'S ELEGANT DESIGN FEATURES, GO TO VOLVOCARS.COM

YOUR HOME  
AWAY FROM HOME.

We Scandinavians love the great outdoors – but when the cool winter breezes blow the first snowflakes across the Baltic, there's no better place to be than a stylish and comfortable Swedish home. Surrounded by beautiful design and exquisite materials, the V40 lets you experience the same feeling of being sheltered and protected.

Shut the solid doors with a satisfying thunk and enter a place that's a world away from any other,

a space of your own purely designed to let you enjoy your drive. Our commitment to reduce clutter and keep things as uncomplicated as possible leaves you free to drive as you turn up the volume of your favourite tune, or simply listen to the thrum of your engine. Whatever your mood, whether you're feeling energised or laid-back, the V40's clean, luxurious interior is carefully designed to give centre stage to that which matters most – you.

From the stitching in your leather seats to the Volvo typeface embossed into the door sills, every detail speaks of our commitment to superior craftsmanship.

EXIT

# VOLVO SENSUS. YOU'RE IN CONTROL, NATURALLY.

## SENSUS

YOUR SPACE | 11

Yes, the new Volvo V40 has a beautifully sculpted exterior. But why should passers-by get all the enjoyment? Since you'll spend most of your time in the driver's seat, we've designed a gorgeous space around you. We've made all your instruments and controls as easy to use and intuitive as possible. We call this approach to connecting you and your car with the world around you "Sensus". Our beautiful new Adaptive Digital Display is the latest expression of this philosophy. Not only does it give you all the information you need without overwhelming you with data, it also gives you three modes to choose from – Elegance, Eco and Performance. Together with the Sensus screen in the dashboard, it makes commanding your drive an effortless experience. And with Sensus Connected Touch, the 7-inch Sensus screen becomes a connected multimedia hub, giving you access to embedded connected navigation, music streaming and internet connection.

Better still, now you don't even have to be inside your Volvo to interact with it. Thanks to Volvo On Call, our highly innovative smartphone app, you have access to a host of functions – from seeing how much fuel you have left to checking whether your car is locked. It's a service that works whether you're inside your home on a cold morning, or at the airport on the other side of the planet. All you need is an internet connection.

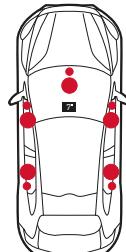

But it's not just our displays and apps that are things of functional beauty. We've put the same amount of care into the steering wheel, as well as our iconic floating centre stack with our trademark "manikin" climate control buttons.

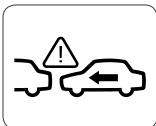

### FULL SONIC IMMERSION

At Volvo, we believe you should enjoy the very best audio experience. That's why we've designed our state-of-the-art Premium Sound Multi Media System with Audyssey Laboratories. Using ten high-fidelity loudspeakers and MultEQ sound processor technology, this 5×130W system provides an unparalleled aural experience for every passenger and connects easily with external media players.

READ MORE ON VOLVOCARS.COM

◀ Our beautifully designed, high-res colour display allows you to choose between three driving modes – Elegance, Eco and Performance.

In town, City Safety is designed to prevent you from colliding with the car in front if it stops suddenly. This advanced IntelliSafe system works at speeds of up to 50 km/h and senses if you're about to collide with another car, then, if necessary, applies the brakes.

We've further improved our Blind Spot Information System (BLIS). It now uses radar technology to alert you to vehicles closing up in your blind spot. There's also Cross Traffic Alert, which watches out for vehicles you can't see when you're reversing out of tight parking spaces.

Because we care about other road users just as much as you, Pedestrian Detection with Full Auto Brake watches out for people walking into your path and applies the brakes if you're unable to react in time.

READ MORE ON VOLVOCARS.COM

Can you see our radar? It's hidden away in the V40's grille but working hard to keep you and people outside the car safe. We call it Collision Warning with Full Auto Brake and Pedestrian Detection – you'll call it a safety breakthrough.

# OH YES. DID WE MENTION SAFETY?

## INTELLISAFE

WE CARE ABOUT YOU | 13

In 1927 our founders, Assar Gabrielsson and Gustaf Larson, decided to make really strong cars that could cope with our rough country roads. But strength alone wasn't enough. They also had a vision: "Cars are driven by people," they said, "so the guiding principle behind everything we make at Volvo is – and must remain – safety." Now our goal is that, by 2020, nobody shall be seriously injured or killed in a new Volvo. We think our founders would have approved.

In order to help us achieve this goal, and in keeping with our philosophy of making your life easier, your V40 has a whole suite of intuitive safety technologies inside it. They're there to support your daily driving, protecting you in the event of an accident and often preventing collisions in the first place. We call this IntelliSafe.

We know V40 owners love driving, but in a world of busier and busier roads, you are constantly

exposed to other people's mistakes. That's why IntelliSafe offers some really smart technologies such as City Safety, Collision Warning with Full Auto Brake and Pedestrian Detection as well as Cyclist Detection.

In a world-first, the V40 is even available with a Pedestrian Airbag. Should the worst happen and you collide with a pedestrian, it inflates to mitigate the impact, which can make a vital difference. It's another example of our commitment to keep all road users safe – whether they are inside or outside a Volvo.

Small wonder, then, that the Volvo V40 achieved a five-star Euro NCAP rating as well as the 2012 Euro NCAP's Best in Class Cars Award in the tough Small Family Car group – with the best overall result ever recorded by the institute.

WE THINK SUSTAINABLE  
DRIVING IS EXCITING.  
SO WILL YOU.

## DRIVE-E

YOUR ENGINE CHOICE | 15

Drive-E is at the heart of every Volvo we make. It's our all-encompassing approach to sustainable driving, our innovative thinking behind a whole range of technologies that will give you more efficiency – and lower running costs – without compromising on a pleasurable drive.

Our Drive-E technological advances include reducing the friction within our engines and a host of aerodynamic improvements to help you get the maximum benefit from your engine and the fuel you put into your car. We employ Start/Stop technology,

energy recovery systems and always strive to make our manufacturing processes more sustainable – all of the electricity for our factory in Sweden comes from clean, hydroelectric power. After all, environmentally-aware mobility is central to our philosophy of intelligent, thoughtful luxury.

Integral to this is the wide choice of powerful, efficient engines available for the V40, ranging from the ultra-efficient D2 diesel with CO<sub>2</sub> emissions of only 88g / km to the T5 five-cylinder 2.5 litre 254hp petrol option.

# LET THERE BE LIGHT.

We believe that the environment in your Volvo should adapt to your differing moods. And now, that includes how the information on your instrument cluster is presented. Our Adaptive Digital Display gives you three modes for displaying beautifully digitized information – Eco, Performance and Elegance.

READ MORE ON VOLVOCARS.COM

Being Scandinavian, we know what it takes to create a beautiful interior. We love to create an environment of fine materials and beautiful shapes, tastefully illuminated to create different moods as well as a sense of well-being. That's why we've paid particular attention to the V40's lighting. In the daytime, our optional panoramic glass roof connects your drive with the sky above, making the V40's spacious and airy cabin an even more pleasant place to be – whether you're sitting in the front or the rear. And in the evening, the V40's optional Theatre Lighting brings an added dimension of atmosphere to your journey,

with seven different light themes to complement your mood, from Toscana White to Violet Blue. In another touch, we've given the V40 an illuminated gear shifter for the automatic version, further accenting the interior at night. And the beautiful Adaptive Digital Display, which evokes the glow of translucent jellyfish, gives the V40 a sense of contemporary cool. All this is rounded off by our frameless rear view mirror, which takes its inspiration from modern smartphone design. In fact, we've put so much thought into the V40's interior, you'll never want your journey to end.

ARE YOU  
LOOKING AT ME?  
GOOD.

R-DESIGN

VOLVO V40 | 18

Would you like to enhance the dynamic personality of your V40 even further? Well then, R-Design is for you, with a range of features to create a premium hatchback with a decidedly athletic look.

Choose the optional lowered sport chassis and you'll benefit from sharper handling and steering response without compromising on ride quality. At the same time, strut braces further stiffen the chassis, which reduce body roll through the corners. Our sporty V40 R-Design is available with fuel-efficient petrol and diesel engines – including a powerful five-cylinder 254hp petrol engine – so you'll never be short of power when you need it.

Exterior design cues include an exclusive R-Design front end featuring a glossy black grille, unique LED lights and at the rear, a set of distinctive chromed dual exhaust pipes. Inside there's a new black interior with sculpted front seats in black Nubuck textile and perforated leather featuring embroidered R-Design logos, as well as an atmospheric black headliner. An illuminated soft touch gear shifter, our unique blue R-Design digital instrument cluster, and personalised interior LED lighting all add to the R-Design experience.

# WHICH V40 ARE YOU?

EXPRESS YOURSELF

VOLVO V40 | 20

Congratulations, you've chosen a Volvo V40. You've even picked your preferred engine. Now all you need to do is select the trim level that's right for you. We've made it easy for you by providing four that we think you'll love. Whether you'd like all the trimmings or a sporty look both inside and out, we have the right one for you.

## V40

Includes:

16" steel wheels (15" on D2) | 3-point safety belts on all 5 seats with belt reminder | Airbag, driver & passenger side | Charcoal inlays in the centre stack | City safety | Corner Traction Control (CTC) | Cupholders in tunnelconsole | Dynamic Stability & Traction Control (DSTC) | ETC single zone | Electronic temperature Control | Hard loadcover | Illuminated vanity mirror passenger side | Immobiliser | Inflatable Curtains | Loresberg textile upholstery | Outer temperature gauge | Pedestrian Airbag | Remote Control central locking | Sensus infotainment system with 5" colour screen in the centre stack and Performance audio system with CD player and AUX-input | Side impact airbags integrated in the front seats | Trip computer | Tyre sealant kit | Whiplash protection integrated in the front seats (WHIPS)

## + KINETIC

Includes Base equipment level plus the following:

16" Matres aluminium wheels | Bright deco frame around décor inlays | Illuminated vanity mirrors, driver and passenger | Leather steering wheel | Leather-clad gearshift knob | Leather-clad handbrake | Reading lights front and front foot well lights | Roller blind over tunnel console cupholders | Textile floormats

## + MOMENTUM

Includes Kinetic equipment level plus the following:

Armrest rear | Audio controls in the steering wheels | Autodimming inner mirror | Bright décor around side windows | Cruise control | Cupholders rear | Height adjustable passenger seat | Power retractable rear view mirrors | Rainsensor | Steering wheel with deco inlays | Textile/T-Tec upholstery | Tilttable driver seat with adjustable lumbar support | Treadplates front

## + SUMMUM

Includes Momentum equipment level plus the following:

17" Mannan aluminium wheels | Leather upholstery | Power seat driver with memory | Sliding armrest front (tunnel console)

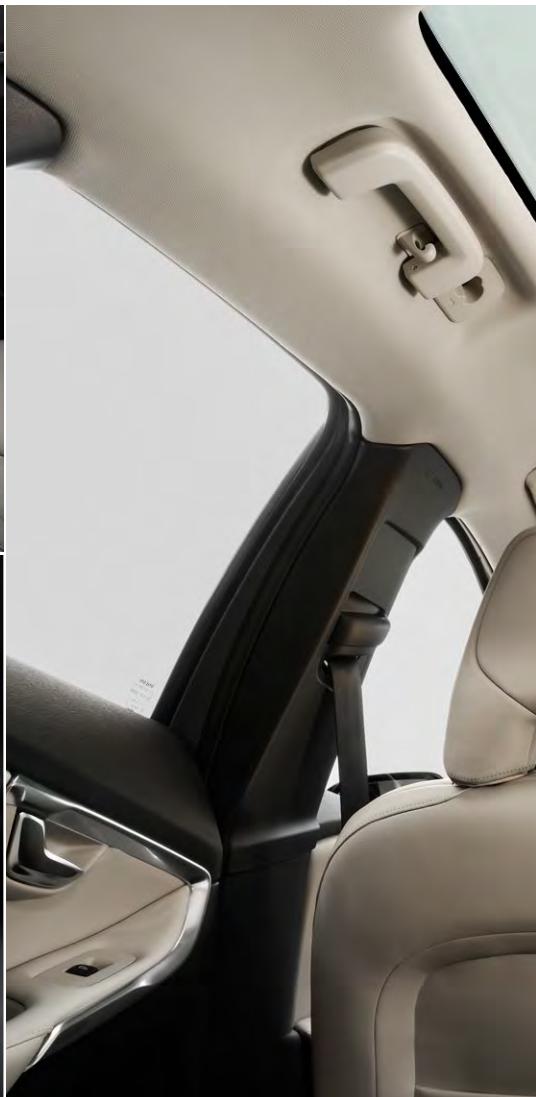

## R-DESIGN

Can be added to Kinetic, Momentum, or Summum equipment levels.

17" Ixion aluminium wheels | Adaptive Digital Display (R-Design) | Charcoal headliner | Dual end pipes in chromed stainless steel | Leather-clad steering wheel with décor inlay (R-Design) | LED Dayrunning lights | Nubuck textile/leather upholstery | R-Design aluminium inlays | R-Design illuminated gearshift knob and handbrake handle | R-Design logo on front grille | Rear view mirror caps in silk metal finish | Sliding armrest, tunnel console | Sport chassis (for D2 man 88g) | Sport pedals | Textile floormats (R-Design)

YOUR V40 IS YOUR  
HOME AWAY FROM HOME.  
GIVE IT YOUR SIGNATURE.

Choose a V40 and you'll enjoy an elegantly designed, driver-oriented cabin as standard, with a superior finish in evidence everywhere you look. And so you can match your car with your personality even more, there is a whole range of gorgeous interior options at your disposal.

Our seats are available in textile, T-Tec / textile or leather upholstery. For our iconic "floating"

centre stack, you have a choice of Modern Wood trim, which evokes contemporary Scandinavian furniture, or our striking Centre Court finish, which perfectly captures the feel of a bright summer's day. And if you like a more techy, metallic look, there's Shimmer Graphite aluminium or Charcoal.

# MATCH YOUR V40 TO YOUR LIFE.

ACCESSORIES

VOLVO V40 | 28

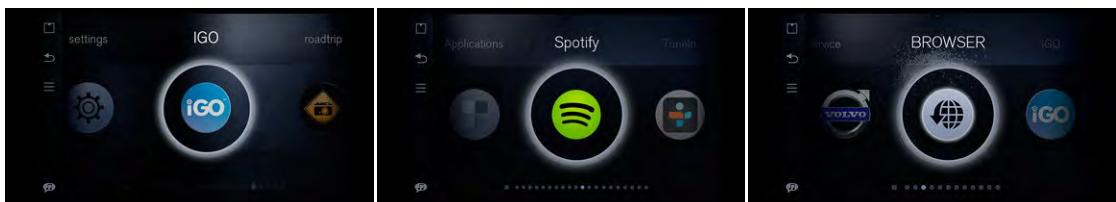

The V40 is already a perfect fit for you, and with our accessories, you can match it to your personality even more. Whether you accent your V40's distinctive Scandinavian design with our Exterior Styling Kit and unique wheels, or go online with Sensus Connected Touch – with our accessories, your Volvo V40 truly complements your style.

FIND MORE ACCESSORIES ON VOLVOCARS.COM

You can choose from a range of options to spice up the exterior styling of your Volvo, it includes side deflectors, rear deflectors, striping and a sporty rear diffuser with dual tail pipes. Together with the roof spoiler and aerodynamic wheels, these accessories show off your V40 to its best advantage.

Our Ailos wheels are available in Red, White or Lime finish. To help you carry different loads, we have a whole range of accessories available, from a protective grille for the load compartment to an electric cooler/heater box, which keeps drinks cool and food warm.

Need a cup of coffee? A bunch of flowers in a hurry? Thanks to Sensus Connected Touch it's easy to search for destinations using Google® before linking seamlessly to iGo®, our connected embedded navigation system with visual and voice directions.

Sensus Connected Touch comes with voice-controlled Spotify®. If, for example, you want to listen to the music of a particular artist, just say their name. The system also searches any connected USB sticks, tablets or smartphones. And the whole universe of global internet radio is just a prompt away.

Your Volvo can keep you in touch with family and friends via Facebook®, email and Twitter®. Even better, you can turn your Volvo into a Wi-Fi hotspot using a USB 3G/4G dongle. Or simply tether your smartphone to Sensus Connected Touch, and you'll create a wireless internet connection you can then use for other devices, such as a tablet.

THE MOST  
CAREFREE WAY TO  
OWN A CAR. EVER.

We love it when you're happy. When things are easier than you expect, or go faster and become better. Because when you buy a Volvo, you buy into the easiest way to own a car. Financing, insurance, servicing, changing tyres, cleaning – those aspects of ownership that you might not find very interesting, are exactly the ones that we love to make easier and better for you. That's why your Volvo dealer will always offer you a whole range of services all designed around you, delivering you the most carefree ownership experience possible.
